

## Articole

1. *Généralisation aux groupes quelconques d'un théorème de E.Hille concernant les fonctions facteurs*, „Rendiconti Lincei“ 24(1958), p.15-19
2. *O demonstrație simplă a unei formule a lui Perron*, „Analele Universității din București“, 1960, p.7-8
3. *On the Chapman Kolmogorov relation for P-sum processes*, „Bulletin Mathématique de la Société des Sciences Mathématiques de Roumanie“, 4(1960), p. 23-38
4. *Relația Chapman Kolmogorov pentru procese de funcții suma*, „Comunicările Academiei Române“, 11(1961), p. 625-626
5. *Martingales of sum functions*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 6(1961), p.703-711
6. *Processes of sum functions on a probabilised Boolean algebra*, în seminarul „Sum functions“, Edition of the Romanian Academy, 1963, p. 44-73
7. *Convergence "almost everywhere" of sequences of sum functions*, în seminarul „Sum functions“, Edition of the Romanian Academy, 1963, p. 91-98
8. *Properties of sample paths of Markov processes*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 11(1966), p.195-204
9. *On Galmarino's lemma*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 11(1966), p. 271-275
10. *An individual ergodic theorem for positive operators*, împreună cu C. Foias, „Revue Roumaine de Mathématiques Pures et Appliquées“, 11(1966), p. 581-594
11. *Processes with independent increments with values in a locally compact group*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 12(1967), p. 817-827
12. *The strong Markov property for sum function processes*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 12(1967), p. 1179-1184
13. *Supermartingales on a Boolean algebra*, în O. Onicescu, *Principles of probability theory*, Edition of the Romanian Academy, 1969, p.221-233
14. *Supermartingales on  $W^*$ -algebras*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 14(1969), p. 759-773
15. *Spectral families and stochastic integrals*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 15(1970), p. 201-221
16. *On the formula of the differential of the exponential mapping of a Lie algebra*, „Studii și cercetări matematice“, 22(1970), p. 223-227
17. *Nonuniformly integrable nonnegative martingales*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 15(1970), p. 327-337
18. *Martingales on von Neumann algebras*, „Journal of Multivariate Analysis“, 1(1971), p.17-27
19. *A proof of  $(A \otimes B)' = A \otimes B'$  for von Neumann algebras*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 16(1971), p. 665-670
20. *An example of a  $II_{\infty}$ -factor representation for a connected Lie group*, „Bulletin of the Faculty of Sciences of the Tehran University“, 3(1971), p. 47-49, publicație apărută în engleză și persană
21. *A short proof of Ito's formula for stochastic differentials of general continuous semimartingales*, „Annals of the University of Bucharest“, 22(1973), p.103-110
22. *Convergence of conditional mean values with respect to descending semitribes*, împreună cu Gabriela Dinescu, „Revue Roumaine de Mathématiques Pures et Appliquées“, 20(1975), p. 273-287

23. *Some remarks concerning the problem of reversing a Markov chain*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 21(1976), p. 677-682
24. *Some constructions of Markov processes I*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 22(1977), p. 1397-1410
25. *Computation of areas on earth ellipsoid*, „Proceedings of the International Symposium“, Braşov, împreună cu A. Brezuleanu, I. Popovici şi A. Turtoi, 1978, p. 231-238
26. *Some constructions of Markov processes II*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 24(1979), p. 205-212
27. *Some constructions of Markov processes III*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 24(1979), p. 357-372
28. *A definition by recurrence of some homogeneous Markov processes. Applications to queuing processes*, „Studii şi cercetări matematice“, 41(1989), p. 461-472
29. *Constructions involving Markov processes with time set  $(0, \infty)$  I*, „Studies in Probability and Related Topics“, Nagard, Rome 1983, p.131-144
30. *A method of constructing stochastic bases*, împreună cu X. W. Zhuang, „Revue Roumaine de Mathématiques Pures et Appliquées“, 29(1984), p. 399-406
31. *Strong Markov property for a class of transition semigroups*, „Proceedings of the 7-th Conference on Probability Theory“, Edition of the Romanian Academy Bucharest, 1984, p. 97-107
32. *On Nelson's proof for the brownian motion characterisation theorem*, împreună cu V. Bally, „Studii şi cercetări matematice“, 40(1988), p. 411-415
33. *Constructions involving Markov processes with time set  $(0, \infty)$  II*, „Studii şi cercetări matematice“, 41(1989), p. 461-472
34. *A proof of the Stone theorem using the Gelfand representation*, „Bulletin of the Polytechnical Institute of Bucharest“, 1991
35. *Applications of some constructions of Markov processes*, „Contemporary Mathematics“, Proceedings of the Doeblin Conference 1991, Blaubeuren(Germany) 1993
36. *Some remarks on tensor products of standard forms of von Neumann algebras*, „Unione Matematica Italiana“, Bolletino 7(1993), p. 907-919
37. *Multivariate unimodality revisited*, „Revue Roumaine de Mathématiques Pures et Appliquées“, 42(1997), p. 525-553
38. *Relation between Fock and non Fock CAR stochastic integrals*, împreună cu R. Theodorescu, „Quantum Probability Communications“, vol. X, p. 205-213, 1998, World Scientific, Singapore
39. *Multiplicative strong unimodality*, „Australian & New Zealand Journal of Statistics“, 40(1998), p. 205-214
40. *Multiplicative strong unimodality revisited*, „Probability Theory and Mathematical Statistics“, împreună cu R. Theodorescu, 1999, p. 1-12, B. Grigelionis et al (Eds.)
41. *Mean preserving representations for unimodal probability measures*, împreună cu R. Theodorescu, „Revue Roumaine de Mathématiques Pures et Appliquées“, 45(2000), nr. 5, p. 789-804
42. *Copulas; diagonals tracks*, împreună cu R. Theodorescu, „Revue Roumaine de Mathématiques Pures et Appliquées“, 46(2001), p. 731-742
43. *Depth function asymptotics*, împreună cu R. Theodorescu, „Revue Roumaine de Mathématiques Pures et Appliquées“, 46(2001), p. 389-417
44. *Extreme value attractors for star unimodal copulas*, împreună cu R. Theodorescu, C. R. Acad. Sci. Paris, 334(2002), p. 689-692

45. *Are copulas unimodal?*, împreună cu R. Theodorescu, „Journal of Multivariate Analysis“, 86(2003), p. 48-71
46. *Unimodal copulas*, împreună cu R. Theodorescu, „Revue Roumaine de Mathématiques Pures et Appliquées“, 48(2003), p. 243-282
47. *Maximum domain of attraction for copulas*, împreună cu R. Theodorescu, „Investigacion Operacional“, 24(2003), p. 257-269, Universidad de la Habana
