LUCRĂRI științifice prezentate și publicate în reviste de specialitate de circulație internațională, recunoscute și cotate ISI (Web of Science)

Societatea Română de Urologie a fost înființată în anul 1989 (Președinte: Profesor Dr. E. Proca).

Din 1999, responsabilitatea Societății a fost preluată de Profesor Dr. I. Sinescu. În anul 2001, Societatea a devenit **Asociația Română de Urologie (ARU)**, după modelul European Association of Urology (EAU).

Începând din anul 2000, Asociația Română de Urologie (ARU) face parte din Grupul Regional Central-European de Urologie, împreună cu Cehia, Slovacia, Polonia, Austria, Slovenia, Croația și Ungaria (la inițiativa EAU, au fost formate și alte grupuri de societăți urologice: Sud-Est European, Baltic, Mediteranean etc). Această strategie a EAU a fost pusă în practică cu scopul de a ridica și de a uniformiza nivelul practicii, publicisticii și cercetării științifice în cadrul EAU conform principiului: **"O singură Europă, o singură Urologie!"**.

În acest fel, Asociația Română de Urologie (ARU) a părăsit grupul Sud-Est European, în special prin eforturile Președintelui ARU, Profesor Dr. I. Sinescu, care a devenit **membru al Board-ului European Association of Urology (EAU) (Chairman) în perioada 2002-2011**.

Până în prezent au fost susținute 20 de Meeting-uri științifice Central-Europene (CEM). De trei ori, acestea au fost organizate în România, de către Asociația Română de Urologie (ARU) (2004, București; 2011, Timișoara; 2018, Cluj-Napoca).

Bilanțul celor 20 de ani de activitate de cercetare științifică, publicistică, strategii profesionale interconectate, se traduce, printre altele, prin următoarele:

a). Asociația Română de Urologie (ARU) a avut, la fiecare Meeting Central-European (CEM) anual, cel mai mare număr de participanți (rezidenți, specialiști, medici primari, cercetători științifici etc) și cel mai mare număr de lucrări științifice prezentate și publicate.

b). Membrii Asociației Române de Urologie (ARU) au obținut cele mai multe premii și diplome de excelență dintre toate asociațiile urologice ale țărilor Central-Europene.

c). Nivelul științific, publicistic, profesional etc, s-a uniformizat în toate țările Central-Europene, fiind practic echivalent celui din țările occidentale.

d). Meeting-urile Central-Europene (CEM) anuale, prin performanțele demonstrate, au devenit autonome, European Association of Urology (EAU) nemaifiind nevoită să le susțină cu speaker-i, experți, membri ai Școlii Europene de Urologie (ESU) etc.

e). Principala strategie a Meeting-urilor Central-Europene (CEM) constă în identificarea celor mai valoroși urologi tineri din ariile academice, viitori lideri profesional-științifici în EAU.

f). Prin selecție riguroasă, lucrările științifice acceptate și prezentate la Meeting-urile Central-Europene (CEM) au fost publicate în revista European Urology Supplements (EUS), revistă științifică a European Association of Urology (EAU) (alături de European Journal of Urology), cu factor de impact ridicat, cotate ISI.

În anul 2004, urmare a activității profesional-științifice și publicistice deosebite, Centrul pentru Urologie și Transplant Renal "Fundeni" a fost declarat "Centru de Excelență" în Asociația Europeană de Urologie (EAU) (unul dintre cele mai prestigioase

centre de specialitate, cu statistică și rezultate unanim recunoscute, unul dintre cele câteva centre de profil din Europa, care acoperă toate cele 13 supraspecialități ale Urologiei).

În anul 2006, Asociația Română de Urologie (ARU) a devenit membru - persoană juridică al Asociației Europene de Urologie (EAU), ceea ce înseamnă că fiecare membru al Asociației Române de Urologie (ARU) devine automat, membru al Asociației Europene de Urologie (EAU).

Toate cele menționate reprezintă realizările și performanțele membrilor Asociației Române de Urologie (ARU) în perioada 2000-2023 !

Lucrări științifice importante au fost publicate în mai multe reviste științifice cu factor de impact ridicat (Centrul pentru Uronefrologie și Transplant Renal "Fundeni"), cotate ISI.
