Lucrări ştiinţifice

1 The Smirnov class for de Branges–Rovnyak spaces, cu E. Fricain, A. Hartmann, W.T. Ross, *Results Math.* 77 (2022), no. 3, Paper No. 114, 11 pp.

2 Reducing subspaces of C_{00} contractions, cu Ch. Benhida, E. Fricain, *New York J. Math.* 27 (2021), 1597–1612.

3 Algebras of block Toeplitz matrices with commuting entries, cu Muhammad Ahsan Khan, *Linear Multilinear Algebra* 69 (2021), 2702–2716.

4 The invariant subspaces of $S \oplus S^*$, *Concrete Operators* 7 (2020), 116–123.

5 Commutant lifting and Nevanlinna-Pick interpolation in several variables, cu Deepak K.D., D.K. Pradhan, J. Sarkar, *Integral Equations and Operator Theory* 92 (2020), Paper no.27, 15p.

6 Algebras of block Toeplitz matrices with commuting entries, cu Muhammad Ahsan Khan, *Linear and Multilinear Algebra*, acceptat.

7 Matrix valued truncated Toeplitz operators: basic properties, cu Rewayat Khan, *Complex Anal. Oper. Theory* 12 (2018), no. 4, 997–1014.

8 Truncated Toeplitz operators and complex symmetries, cu Hari Bercovici, *Proc. Amer. Math. Soc.* 146 (2018), no. 1, 261–266.

9 A Szeg″o type theorem for truncated Toeplitz operators, cu Elizabeth Strouse şi Mohamed Zarrabi, *Journal of Approximation Theory* 220 (2017), 12–30.

10 Factorizations of kernels and reproducing kernel Hilbert spaces, cu R. Kumari, J. Sarkar şi S. Sarkar, *Integral Equations and Operator Theory* 87 (2017), 225–244.

11 Classes of contractions and Harnack domination, cu Catalin Badea şi Laurian Suciu, *Revista Matematica Iberoamericana* 33 (2017), 469–488.

12 An extremal problem for characteristic functions, cu I. Chalendar, S.R. Garcia şi W.T. Ross, *Trans. Amer. Math. Soc.* 368 (2016), 4115-4135.

13 A short introduction to de Branges–Rovnyak spaces, în *Invariant Subspaces of the Shift Operator*, Contemporary Mathematics, AMS 2015, 21–38.

14 Note on a Julia operator related to model spaces, în *Invariant Subspaces of the Shift Operator*, Contemporary Mathematics, AMS 2015, 247–254.

15 Contractively included subspaces of Pick spaces, cu Chafiq Benhida, *Complex Anal. Oper. Theory* 9 (2015), 245–264.

16 Commutation relations for truncated Toeplitz operators, cu I. Chalendar, *Operators and Matrices*, 8 (2014), 877–888.

17 Nonextreme de Branges–Rovnyak spaces as models for contractions, cu Javad Mashreghi, *Integral Equations Operator Theory* **80** (2014), 137–152.

18 Schur coupling and related equivalence relations for operators on a Hilbert space, *Linear Algebra Appl.* **452** (2014), 106–119.

19 The numerical range of a contraction with finite defect numbers, cu H. Bercovici, *J. Math. Anal. Appl.* **417** (2014), 42–56.

20 Two remarks about nilpotent operators of order two, cu S.R. Garcia şi B. Lutz, *Proc. Amer. Math. Soc.* **142** (2014), 1749–1756.

21 Embeddings of Müntz spaces: the Hilbertian case, cu S. Waleed Noor, *Proc. Amer. Math. Soc.* **141** (2013), 2009–2023.

22 A note on composition operators in a half-plane, cu H. Bercovici, *Arch. Math. (Basel)* **99** (2012), 567–576.

23 Unitary equivalence to truncated Toeplitz operators, cu E. Strouse şi M. Zarrabi, *Indiana Univ. Math. J.* **61** (2012), 525–538.

24 Embedding theorems for Müntz spaces, cu I. Chalendar şi E. Fricain, *Ann. Inst. Fourier* **61** (2011), 2291–2311.

25 Factorization of analytic self-maps of the half-plane, cu H. Bercovici, *Ann. Acad. Sci. Fenn.* **37** (2012), 1–12.

26 Numerical ranges of $C_0(N)$ contractions, cu Ch. Benhida şi P. Gorkin, *Integral Equations Operator Theory* **70** (2011), 265–279.

27 A family of reductions for Schubert intersection problems, cu H. Bercovici şi W.S. Li, *J. Algebraic Combin.* **33** (2011), 609–649.

28 Extensions of positive definite functions on amenable groups, cu M. Bakonyi, *Canad. Math. Bull.* **54** (2011), 3–11.

29 Bounded symbols and reproducing kernel thesis for truncated Toeplitz operators, cu A. Baranov, I. Chalendar, E. Fricain, J. Mashreghi, *J. Funct. Anal.* **259** (2010), 2673–2701.

30 Intersections of Schubert varieties and eigenvalue inequalities in an arbitrary finite factor, cu H. Bercovici, B. Collins, K. Dykema şi W.S. Li, *J. Funct. Anal.* **258** (2010), 1579–1627.

31 On an extremal problem of Garcia şi Ross, cu I. Chalendar şi E. Fricain, *Operators şi Matrices* **3** (2009), 541–546.

32 The Horn conjecture for sums of compact selfadjoint operators, cu H. Bercovici şi W.S. Li, *Amer. J. Math.* **131** (2009), 1543–1567.

33 On certain Riesz families in vector-valued de Branges–Rovnyak spaces, cu N. Chevrot şi E. Fricain, *J. Math. Anal. Appl.* **355** (2009), 110–125.

34 Finitely strictly singular operators between James spaces, cu I. Chalendar, E. Fricain, A. Popov şi V. Troitsky, *J. Funct. Anal.* **256** (2009), 1258–1268.

35 A note on the stability of linear combinations of algebraic operators, cu I. Chalendar şi E. Fricain, *Extracta Math.* **23** (2008), 43–48.

36 The central completion of a positive block operator matrix, cu M. Bakonyi, in *Operator theory, structured matrices şi dilations*, 69–83, Theta, Bucureşti, 2007.

37 The characteristic function of a complex symmetric contraction, cu N. Chevrot şi E. Fricain, *Proc. Amer. Math. Soc.* **135** (2007), 2877–2886.

38 Extensions of positive definite functions on free groups, cu M. Bakonyi, *J. Functional Analysis*, **246** (2007), 31–49.

39 Some automorphism invariance properties for multicontractions, cu Ch. Benhida, *Indiana Univ. Math. J.* **56** (2007), 481–500.

40 Weak contractions and trace class perturbations, cu H. Bercovici, *Oper. Matrices* **1** (2007), 71–85.

41 Characteristic functions for multicontractions and automorphisms of the unit ball, cu Ch. Benhida, *Integral Equations Operator Theory* **52** (2007), 153–166.

42 The characteristic function of a complex symmetric contraction, cu N. Chevrot şi E. Fricain, *Proc. A.M.S.* **135** (2007), 2877–2886.

43 Trace-class perturbations and functional calculus, cu H. Bercovici, în *Operator Theory, Operator Algebras şi Applications*, Deguang Han, Palle E.T. Jorgensen şi D.R. Larson, Editors, Contemporary Mathematics **414**, American Mathematical Society, 2006, 399–402.

44 Inner-outer factorization for operator-valued functions on ordered groups, cu M. Bakonyi, *Studia Mathematica* **169** (2005), 295–303.

45 A remark on positive definite functions on free groups, cu M. Bakonyi, *Demonstratio Mathematica* **39** (2006), 317–320.

46 The relaxed intertwining lifting in the coupling approach, cu W.S. Li, *Integral Equations Operator Theory* **54** (2005), 97–111.

47 Power boundedness and similarity to contractions for some perturbations of isometries, cu G. Cassier, *Journal of Mathematical Analysis and Applications* **293** (2004), 160–180.

48 Approximation theory and matrix completions, cu D. Hadwin şi D.R. Larson, *Linear Algebra Appl.* **377** (2004), 165–179.

49 Functional models and asymptotically orthonormal sequences, cu I. Chalendar şi E. Fricain *Ann. Institut Fourier*, **53** (2003), 1527–1549.

50 The intertwining lifting theorem for ordered groups, cu M. Bakonyi, *J. Functional Analysis* **199** (2003), 411–426.

51 A von Neumann type inequality for certain domains in $\mathbf{C}^n$, cu C.-G. Ambrozie, *Proceedings of the AMS* **131** (2003), 859–869.

52 The weighted intertwining lifting theorem in the coupling approach, *Integral Equations and Operator Theory* **42** (2002), 493–497.

53 On an intertwining lifting theorem for certain reproducing kernel Hilbert spaces, cu C.-G. Ambrozie, *Integral Equations and Operator Theory* **42** (2002), 373–384.

54 On an extension problem for polynomials, cu M. Bakonyi, *Bull. London Math. Soc.* **33** (2001), 599–605.

55 A note on finite rank perturbations of contractions and dual algebras, cu Ch. Benhida, *Bull. Math. Soc. Sc. Math. Roum.*, **44(92)** (2001), 193–198.

56 Finite rank perturbations of contractions, cu Ch. Benhida, *Integral Equations Operator Theory* **36** (2000), 253-268.

57 A commutant lifting theorem for the polydisc, cu J. A. Ball, W. S. Li şi T. T. Trent, *Indiana Univ. Math. Journal* **48** (1999), 653-675.

58 On the three chains theorem in intertwining lifting, *Bul. Acad. Sti. Rep. Moldova* **3(28)** (1998), 133-136.

59 Regular dilations and models for multicontractions, *Indiana Univ. Math. Journal* **47** (1998), no.2, 671-684.

60 The central Ando dilation and related orthogonality properties, cu W. S. Li, *J. Funct. Analysis* **154** (1998), 1-16.

61 On isometric intertwining liftings, cu W. S. Li, *Operator Theory: Advances and Applications* **104** (1998), 155-167.

62 On a conjecture of Cotlar and Sadosky on multidimensional Hankel operators, cu M. Bakonyi, *Comptes Rendus de l'Academie des Sciences* **325**, I (1997), 1071-1075.

63 Functional models and finite dimensional perturbations of the shift, cu Ch. Benhida, *Integral equations and Operator Theory* **29**, 2 (1997), 187-196.

64 A short proof of N.Young's theorem on the orbits of the action of the symplectic group, *Proc. of the Edinburgh Mathematical Society* **40** (1997), 309-315.

65 On some perturbations of completely non-unitary contractions of multiplicity two, *Acta Scientiarum Mathematicarum* **61** (1995), 477-491.

66 Redheffer products and characteristic functions, *J. Math. Anal. Appl.* **196** (1995), 823-840.

67 A note on Cartan open subsets of $\mathbf{R}^n \times \mathbf{C}$, cu E.Pascu, *Rev. Roum. Math. Pures Appl.* **38** (1993), 35-36.

68 Completions of matrices and the commutant lifting theorem, *J. Functional Analysis* **104** (1992), 291-298.

69 A note on Parrott's strong theorem, *J. Math. Anal. Appl.* **171** (1992), 288293.

70 C_p estimates for certain kernels on local fields, *Studia Math.* **88** (1988), 43-50.

71 C_p estimates for certain kernels : the case $0 < p < 1$, *J. Functional Analysis* **72** (1987), 368-380.

72 A topological characterization of Cartan open subsets of $\mathbf{R} \times \mathbf{C}$, cu E.Pascu, *Rev. Roum. Math. Pures Appl.* **31** (1986), 309-316.

73 Prediction theory and choice sequences: an alternate approach, *Operator Theory: Advances and Applications* **17** (1986), 341-352.

74 A note on C_p estimates for certain kernels, *Integral Equations Operator Theory* **9** (1986), 295-304.

75 On the notion of prediction in completeness theory, cu I.Suciu, in *Prediction Theory şi Harmonic Analysis*, North Holl şi, Amsterdam, 1983, 367-378.

76 A new algorithm for detecting reflection coefficients in layered media, cu Gr.Arsene, Z.Ceaușescu și Fl.-A.Potra, *Ann.Geophysicae* **1** (1983), 285290.

77 Remark on the Bartle-Graves theorem, *Operator Theory: Advances and Applications* **11** (1983), 389-394.

78 The Levinson algorithm in linear prediction, *Operator Theory: Advances and Applications* **8** (1982), 217-223.

79 Characterizations of some Harnack parts of contractions, cu T. Ando și I.Suciu, *J. Operator Theory* **2** (1979), 233-245.

80 Generalizări ale unor funcții definite pe $L(H)$, cu H.Bercovici și R.N.Gologan, *St. Cerc. Mat.* **27** (1975), 131-156.

81 On Riemann-Stieltjes integrability, *Rev. Roum. Math. Pures Appl.* **28** (1973), 291-293.
