

## Romania-Japan Bilateral Workshop

### *Promoting future interdisciplinary research on landslides disaster risk reduction in the Vrancea Seismic Region*

Romanian Academy,  
Council Room,  
10 March, 10:00 – 13:00

### ***Programme***

- |               |  |
|---------------|--|
| 10:00 – 10:10 | Welcome messages   |
| 10:10 – 10:30 | <i>Landslide complexity in Vrancea Seismic Region: implications for hazard assessment</i> (Mihai Micu, Institute of Geography, Romanian Academy)   |
| 10:30 – 10:50 | <i>Characteristics of landslides in Japan</i> (Takashi Oguchi, University of Tokyo, Center for Spatial Information Science)  |
| 10:50 – 11:10 | <i>Towards semi-automated landslide mapping</i> (Lucian Drăguț, West University of Timișoara, Geography Department)  |
| 11:10 – 11:40 | Coffee break   |
| 11:40 – 12:00 | <i>Utilizing UAVs for landform changing processes and Virtual Reality education</i> (Korato Iizuka, University of Tokyo, Center for Spatial Information Science)                           |
| 12:00 – 12:20 | <i>Landslide exposure, vulnerability and risk in the Vrancea Seismic Region</i> (Marta Jurchescu, Mihaela Sima, Gheorghe Kucsicsa, Dan Bălțeanu, Institute of Geography, Romanian Academy) |
| 12:20 – 13:00 | Discussions on common research perspectives  |
